More advanced features

Networkability is very convenient!

Designate the C-20 or a computer as a data storage. One-push operation keeps notes of your meeting in one place. Any computer can access to a data storage with your ID and Password!

Dedicated Captureboard Software

C-20 comes with dedicated Captureboard software that combines the projected image with handwritten notes and writings. The data can be saved to a PC or can be printed from the onboard printer via USB cable.

Note: Annotated image can only be saved to a PC.

Easy to use! USB Port in FRONT

Because USB port for a memory stick is located in the front position of the board, it is so easy to use the USB memory stick together with the improved user interface.

The Eco-Friendly Design with the lowest power consumption

The C-20 has achieved the lowest power consumption in the industry. (Only 12 watts operating power consumption) This can both save the environment as well as the running cost.

More features

Simple PC Connection!

Simply connect your PC to the Copyboard via the USB cable to allow you to save the content on the board. No software is required. Unplugging the USB cable will erase data on the board for security.

Note: To combine the projected image with the writings, you need to install the dedicated software.

Magnets attach to the board surface

First time for the sheet-type Copyboard ever, you can use magnets on the panel to attach the sheet materials. This feature brings versatility in Copyboard usages.

Note: Do not scan the board while magnets are attached.
